Revision date: 10/12/2021 Version: Language: Date of first version: 10/21/2014

Bagging Films Material number 1025

## 1. Product and company identification

#### **Product identifier**

Trade name: **Bagging Films** 

> NBF125C, Big Blue L-100, Securlon® V-45, Securlon® L-500Y, Securlon® L-1000, Securlon® L-2000, Securlon® L2000 Embossed, Stretchlon® 200, Stretchlon® 700, Stretchlon® 800, Stretchlon® 850, Stretchlon® HT-350, Ipplon® KM1300, Ipplon® DP1000, Ipplon® DPT1000, Ipplon® WN1500, Wrightlon® 600V, Wrightlon® 5400, Wrightlon® 6400, Wrightlon® 7400, Wrightlon® 8400, Dahlar® Release Bag 125, Dahlar® Release Bag 375R, Dahlar® Release Bag 460, Dahlar® Release Bag 500,

Econolon, Airdraw 2, Airdraw 2-DC, Thermalimide

### Relevant identified uses of the substance or mixture and uses advised against

General use: Article: Vacuum bagging film

#### Details of the supplier of the safety data sheet

Company name:

Airtech International, Inc.

5700 Skylab Road Zone industrielle Haneboesch

Huntington Beach, CA 92647 L-4562 Differdange

E-mail: airtech@airtechintl.com Luxembourg

### 2. Hazards identification

#### Emergency overview

Appearance: Form: solid

Color: varying

Odor: odorless

Voluntary product information following the Safety Data Sheet format

 Revision date:
 10/12/2021

 Version:
 7.2

 Language:
 en-US

 Date of first version:
 10/21/2014

# **Bagging Films**

Material number 1025 Page: 2 of 9

Classification:

Article not subject to hazard labelling or classification.

#### Regulatory status

This material is not considered hazardous by the U.S. OSHA Hazard Communication Standard (29 CFR 1910.1200).

#### Hazards not otherwise classified

Toxic fumes may be emitted at elevated temperatures. Do not breathe vapor. Processing, e.g. by cutting, sawing or grinding, can produce particles and dust. Avoid inhalation of dusts, as even inert dusts may functionally affect respiratory organs.

see section 11: Toxicological information

## 3. Composition / Information on ingredients

Chemical characterization: Thermoplastic films

### 4. First aid measures

In case of inhalation: In case of inhalation of decomposition products, affected person should be moved into

fresh air and kept still. If the casualty has difficulty breathing, call a doctor immediately.

Following skin contact: After contact with molten product, cool skin area rapidly with cold water. Do not peel

solidified product off the skin. Seek medical attention.

After eye contact: In the event of irritation from processing vapors: Immediately flush eyes with plenty of

flowing water for 10 to 15 minutes holding eyelids apart. In case of troubles or persistent

symptoms, consult an opthalmologist.

After swallowing: Not a probable route of exposure.

In the case of the formation of dust: Rinse mouth. Seek medical treatment in case of

troubles.

### Most important symptoms/effects, acute and delayed

In case of inhalation:

Inhalation of dust may cause irritation of the respiratory system. Overheating released mist or vapors can irritate the respiratory tracts.

Other symptoms: Cough, respiratory complaints, dizziness, nausea, vomiting.

After contact with skin: The melted product can cause severe burns.

After eye contact:

Process vapors can irritate the eyes. Dust contact with the eyes can lead to mechanical

irritation.

#### Information to physician

Treat symptomatically.

# 5. Fire fighting measures

Flash point/flash point range:

No data available

Auto-ignition temperature: No data available

Suitable extinguishing media:

Water spray jet, dry chemical powder, foam, carbon dioxide

Voluntary product information following the Safety Data Sheet format

# **Bagging Films**

Material number 1025 Page:

Extinguishing media which must not be used for safety reasons:

Full water jet.

### Specific hazards arising from the chemical

This material is combustible, but will not ignite readily. Toxic fumes may be emitted at elevated temperatures.

In case of fire may be liberated: Caprolactam, nitrogen oxides (NOx), amines, carbon monoxide and carbon dioxide, hydrogen cyanide, isocyanates, isocyanic acid.

Protective equipment and precautions for firefighters:

Wear a self-contained breathing apparatus and chemical protective clothing.

Additional information: Seal off endangered area. Cool endangered containers with water spray and, if possible,

remove from danger zone. Use a water fog to control vapors. Do not breathe fumes. Do

not allow fire water to penetrate into surface or ground water.

### 6. Accidental release measures

Personal precautions: Handle in accordance with good industrial hygiene and safety practice.

At processing: Avoid the formation of aerosol/vapors. Avoid generation of dust. Avoid inhalation and contact with skin and eyes. Wear appropriate protective equipment. Keep unprotected people away. Ensure adequate ventilation, especially in confined areas.

Environmental precautions:

Do not allow to penetrate into soil, waterbodies or drains.

Methods for clean-up: Take up mechanically, placing in appropriate containers for disposal. Dispose of waste

according to applicable legislation.

# 7. Handling and storage

### Handling

Advices on safe handling: Handle in accordance with good industrial hygiene and safety practice.

At processing: Provide adequate ventilation, and local exhaust as needed. Avoid the formation of aerosol/vapors. Avoid generation of dust. Avoid inhalation and contact with skin and eyes. Wear appropriate protective equipment. Keep unprotected people away.

When using do not eat, drink or smoke.

Precautions against fire and explosion:

Take standard precautions to prevent fire.

#### Storage

Requirements for storerooms and containers:

Keep in a cool place. Keep container dry. Protect from direct sunlight. Keep away from

incompatible materials. Store at room temperature.

Hints on joint storage: Incompatible materials: Strong bases, strong acids, strong oxidizing agents.

Keep away from food and drinks.

Material number 1025 Page: 4 of 9

### 8. Exposure controls / personal protection

### **Exposure guidelines**

Occupational exposure limit values:

Туре	Limit value	
USA: ACGIH: TWA	10 mg/m³ (Dust limit value, inhalable fraction)	
USA: ACGIH: TWA	3 mg/m³ (Dust limit value, respirable fraction)	
USA: OSHA: TWA	15 mg/m³ (Dust limit value, inhalable fraction)	
USA: OSHA: TWA	5 mg/m³ (Dust limit value, respirable fraction)	

#### **Engineering controls**

Provide good ventilation and/or an exhaust system in the work area.

In case of development of vapors or dust (at processing): Use local exhaust.

See also information in chapter 7, section storage.

### Personal protection equipment (PPE)

Eye/face protection: At processing (recommended): Safety glasses in accordance with OSHA 29 CFR:

1910.133 or ANSI Z87.1-2010.

Skin protection: At processing (recommended): Wear suitable protective clothing.

Recommendation:

Protective gloves according to OSHA Standard - 29 CFR: 1910.138.

Glove material: nitrile rubber (0.11 mm)

Breakthrough time: 480 min.

Observe glove manufacturer's instructions concerning penetrability and breakthrough time.

Respiratory protection: Respiratory protection is not necessary if room is well ventilated.

At processing:

When vapors form, use respiratory protection. The filter class must be suitable for the maximum contaminant concentration (gas/vapor/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing

apparatus must be used.

General hygiene considerations:

Handle in accordance with good industrial hygiene and safety practice. Wash hands

before breaks and after work. When using do not eat, drink or smoke.

At processing:

Avoid contact with skin, eyes, and clothing. Do not breathe vapors. Do not breathe dust.

#### **Environmental exposure controls**

Refer to 6.: Section "Environmental precautions".

## 9. Physical and chemical properties

#### Information on basic physical and chemical properties

Appearance: Form: solid

Color: varying

Odor: odorless

Odor threshold: No data available

pH: No data available

## **Bagging Films**

Material number 1025 Page: 5 of 9

Melting point/freezing point:

Initial boiling point and boiling range:

Flash point/flash point range:

Evaporation rate:

No data available

No data available

No data available

Flammability: This material is combustible, but will not ignite readily.

**Explosion limits:** No data available Vapor pressure: No data available Vapor density: No data available Density: No data available at 68 °F: insoluble Water solubility: Partition coefficient: n-octanol/water: No data available Auto-ignition temperature: No data available Thermal decomposition: No data available

Additional information: No data available

## 10. Stability and reactivity

Reactivity: Refer to section: Possibility of hazardous reactions.

Chemical stability: Stable under recommended storage conditions.

Possibility of hazardous reactions:

No dangerous reactions with proper and specified storage and handling

Conditions to avoid: Keep away from heat. Protect from direct sunlight. Avoid generation of dust. Avoid the

formation of aerosol/vapors.

Incompatible materials: Strong bases, strong acids, strong oxidizing agents.

Hazardous decomposition products:

Caprolactam, nitrogen oxides (NOx), amines, carbon monoxide and carbon dioxide,

hydrogen cyanide, isocyanates, isocyanic acid.

Thermal decomposition: No data available

## 11. Toxicological information

### **Toxicological tests**

Toxicological effects:

The statements are derived from the properties of the single components. No toxicological

data is available for the product as such.

Acute toxicity (oral): Lack of data.

Acute toxicity (dermal): Lack of data.

Acute toxicity (inhalative): Lack of data.

Skin corrosion/irritation: Lack of data.

Serious eye damage/irritation: Lack of data.

Sensitisation to the respiratory tract: Lack of data.

Skin sensitisation: Lack of data.

Germ cell mutagenicity/Genotoxicity: Lack of data.

Carcinogenicity: Lack of data.

Reproductive toxicity: Lack of data.

Effects on or via lactation: Lack of data.

Specific target organ toxicity (single exposure): Lack of data.

Specific target organ toxicity (repeated exposure): Lack of data. Aspiration hazard: Lack of data.

Other information:

Toxic fumes may be emitted at elevated temperatures. Processing, e.g. by cutting,

sawing or grinding, can produce particles and dust. Dust may irritate airways and cause

bronchitis symptoms.

Information about Caprolactam: Harmful if swallowed. Harmful if inhaled. Causes skin

irritation. Causes serious eye irritation. May cause respiratory irritation.

#### **Symptoms**

In case of inhalation:

Inhalation of dust may cause irritation of the respiratory system. Overheating released

mist or vapors can irritate the respiratory tracts.

Other symptoms: Cough, respiratory complaints, dizziness, nausea, vomiting.

After contact with skin: The melted product can cause severe burns.

After eye contact:

Process vapors can irritate the eyes. Dust contact with the eyes can lead to mechanical

irritation.

# 12. Ecological information

### **Ecotoxicity**

Effects in sewage plants: The insoluble part can be precipitated mechanically in suitable sewage treatment plants.

Further details: No data available

### Mobility in soil

No data available

### Persistence and degradability

Further details: Product is not biodegradable.

### Additional ecological information

General information: Do not allow to penetrate into soil, waterbodies or drains.

## 13. Disposal considerations

**Product** 

Recommendation: Dispose of waste according to applicable legislation. Recycling or special waste

incineration.

**Package** 

Recommendation: Dispose of waste according to applicable legislation. Non-contaminated packages may be

recycled.

## 14. Transport information

#### 14.2 UN proper shipping name

ADR/RID, IMDG, IATA-DGR:

Not restricted

### Transport hazard class(es)

ADR/RID, IMDG, IATA-DGR:

not applicable

### **Packing group**

ADR/RID, IMDG, IATA-DGR:

not applicable

#### **Environmental hazards**

Marine pollutant:

### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

No data available

#### **USA: Department of Transportation (DOT)**

Proper shipping name: Not restricted

Sea transport (IMDG)

Proper shipping name: Not restricted

Marine pollutant:

Air transport (IATA)

Proper shipping name: Not restricted

#### **Further information**

No dangerous good in sense of these transport regulations.
